Dear Andrea,

I would like to take this opportunity to express my deepest gratitude for everything you and your staff have done for Emma and myself. Words cannot begin to describe how I feel about A Child's World and the entire staff.

In light of our life altering events it gives me a great sense of peacefulness knowing that I am leaving Emma with a group of people that are not only providing her with an exceptional education, that has far surpassed my expectations. But also knowing that she is surrounded by people that truly love what they do and have a genuine love for all the children that attend A Child's World. Emma has grown both emotionally and academically since she started the Pre-K Counts program and everyday I am thankful that she is a part of A Child's World family.

The learning system that is in place as well as the excellent teachers, are not only providing her with a solid base for learning but are also providing me with invaluable tools that can be used through out her education to keep the communication between school and home life continuous. Even though I sometimes have to listen to being called Ms. Sheree and /or Ms. Amanda before Mom comes out of her mouth I don't seem to mind it much because they are both terrific people who challenge her everyday and are extremely loving and caring. Emma also loves the time she spends with Ms. Kim and Mr. Alice on the days that she stays late and is always quick to correct me when I do or say something that *they* would not have approved of.

I am (god willing) looking forward to A Child's World's continued involvement in Emma's life as I begin the process of creating our "New normal". As I have previously stated the sense of peacefulness I have when leaving her in their care allows me to move on and be at ease knowing that she is with people who are aware of her situation and the impact it has had on her. And are also experienced and educated enough to alert me to any concerns that I might not see.

In closing I wish to personally thank you from the bottom of my heart for everything you have done for me and for all of the exceptions that have been made. If there is ever anything I can do for you or the center please don't hesitate to ask. And even though it fails in comparison to the savings that due to your generosity I have had I would like to make a donation to the "Talia Seidman Foundation" so that the life of another child can be touched as lovingly as Emma's has by people as wonderful as You and your staff.

Thank you,

Dawn Schaffer-Doster
